Description
Straw yellow colour with golden reflections, fine and persistent perlage. On the nose, the bouquet is delicate and fruity with some floral notes. On the palate, it is fresh and well-balanced. Production process: following vinification, the wine undergoes a delicate dealcoholization technique that preserves its organoleptic profile intact, safeguarding bouquets, aromas, and flavors. In the final stage, carbonation through the addition of CO2 gives the wine a fine and palate-pleasing perlage.

Pairings
It is perfect for aperitifs, business lunches, convivial moments, family gatherings, corporate events, and informal celebrations, offering an elegant and inclusive alternative for any occasion. It's suitable for everyone and meets the needs of those following an alcohol-free lifestyle.
